# CITY OF OWEN SOUND EMERGENCY RESPONSE PLAN

## INTRODUCTION

Emergencies are defined as situations or impending situations caused by forces of nature, a disease or other health risk, an accident or an intentional act that constitutes a danger of major proportions to life and property. Emergencies affect public safety including the health, welfare and property of residents, businesses and visitors, as well as the environment and economic health of the City of Owen Sound.

In order to protect residents, businesses and visitors, the City of Owen Sound requires a coordinated emergency response by a number of agencies under the direction of the EOC members. These are arrangements and procedures that are distinct from normal day-to-day operations carried out by emergency services.

The Incident Management System (IMS) has been adopted in this Emergency Response Plan (Plan) to define the basic command structure and to identify roles and responsibilities to ensure effective management of an emergency. There has been a conscious change to IMS and encompassing the positions within the Municipal Emergency Control Group (MECG) within the key areas of IMS.

Every official, municipal department and agency must be prepared to carry out assigned responsibilities in an emergency. The Plan has been prepared to provide key officials, agencies and departments of the City of Owen Sound with important emergency response information related to:

- Arrangements, services and equipment; and
- Roles and responsibilities during an emergency.

In addition, it is important that the residents, businesses and interested visitors be aware of its provisions. Copies of the City of Owen Sound Emergency Response Plan may be viewed at City Hall, the Owen Sound Library and on-line at:

## Aim

The aim of this Plan is to make provision for the extraordinary arrangements and measures that may have to be taken to protect the health, safety, welfare, environment and economic health of the residents, businesses and visitors of the City of Owen Sound when faced with an emergency.

It enables a centralized, controlled and coordinated response to emergencies in the City of Owen Sound and meets the legislated requirements of the *Emergency Management and Civil Protection Act*.

For further details, please contact the Fire Chief / Community Emergency Management Coordinator (CEMC).

## Purpose

The purpose of the City of Owen Sound Emergency Response Plan during an emergency is to facilitate the effective coordination of human and physical resources, services and activities necessary to:

- a) Protect and preserve life and property
- b) Minimize and/or mitigate the effects of the emergency on the residents and physical infrastructure of the City of Owen Sound; and
- c) Quickly and efficiently enable the recovery and restoration of normal services

## Authority

The legislation under which the City of Owen Sound and its employees are authorized to respond to an emergency is found in:

- The *Emergency Management and Civil Protection Act*, R.S.O. 1990, c. E.9 as amended, and
- City of Owen Sound Bylaw #2015-005.

## Emergency Management and Civil Protection Act

Subsection 4 (1) of the Emergency Management and Civil Protection Act, R.S.O. 1990, C. E. 9, as amended states that:

*“The head of council of a municipality may declare that an emergency exists in the municipality or in any part thereof and may take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan of the municipality and to protect property and the health, safety and welfare of the inhabitants of the emergency area.”*

### **City of Owen Sound Bylaws**

Council approved the Emergency Management Program and the Emergency Response Plan (Bylaw 2015-005) with the enactment of this bylaw on January 12, 2015.

### **City of Owen Sound Management Program Committee**

The Emergency Management Program Committee is comprised of the senior staff or staff designated by them. The CEMC (Fire Chief) is appointed as the Chair of the Committee.

---

## EMERGENCY NOTIFICATION PROCEDURES

### Introduction

Only members of the Municipal Emergency Control Group (MECG) with the authority to activate the procedure as defined in the *MECG Staffing Positions* descriptions may initiate the notification procedure.

The contact phone numbers of the MECG Members and their alternates, along with MECG Support Staff Members and their alternates are contained in **Appendix A**.

When an MECG member, with the authority to activate the plan, receives a warning of a real or potential emergency, that member will immediately contact the Duty Sergeant of the Owen Sound Police Services. The MECG member will request that the Duty Sergeant initiate the notification of the City of Owen Sound Primary MECG response fan-out list.

At minimum the Mayor, City Manager, Fire Chief, Police Chief, Director of Operations, and Emergency Information Officer (EIO) or their alternates will be notified. The member initiating the call must provide pertinent details (i.e. a time and place for the EOC members to meet) as part of the notification procedure.

If deemed appropriate, the individual MECG member may initiate his/her own internal notification procedures of their staff and volunteer organizations. Where a threat of an impending emergency exists, any member of the MECG may initiate the notification procedure and place the MECG members on standby.

### Requests for Assistance

Assistance may be requested from Grey County at any time by contacting the Warden or CAO for Grey County. The request shall not be deemed to be a request that Grey County assumes authority and control of the emergency.

Assistance may also be requested from the Province of Ontario at any time without any loss of control or authority. A request for assistance is made by contacting Emergency Management Ontario.

### Request - Provincial/Federal Assistance

If locally available resources, including those which might be available from bordering municipalities and/or County sources, are insufficient to meet emergency requirements, then assistance may be requested from the province. Such requests should normally be directed through Emergency Management Ontario in Toronto by the CEMC.

### Definition of an Emergency

Under Section 1 of the Emergency Management and Civil Protection Act, an

“emergency” means:

*“...a situation or an impending situation that constitutes a danger of major proportions that could result in serious harm to persons or substantial damage to property and that is caused by the force of nature, a disease or other health risk, an accident or an act whether intentional or otherwise.”*

- While a wide variety of types of emergencies may occur within the geographical area of the City of Owen Sound, our Hazard Identification and Risk Assessment (HIRA) shows the most likely of these to occur are: weather related; transportation accidents; power blackouts; large scale uncontrollable fires; a breakdown in the flow of essential services/supplies, or any combination thereof.

### **Action Prior to Declaration**

When an emergency exists, but has yet to be declared to exist, municipal employees may take such action(s) under this Plan as may be required to protect property and the health, safety and welfare of the residents, businesses and visitors to the City of Owen Sound.

### **Declared Municipal Emergency**

The Mayor or Deputy Mayor of the City of Owen Sound, as head of Council, is responsible for declaring an emergency. This decision is usually made in consultation with other members of the MCEG.

Upon **declaring** an emergency, the Mayor or Deputy Mayor will notify:

- Emergency Management Ontario, Ministry of Community Safety and Correctional Services
- City of Owen Sound Council Members
- CAO and Warden of Grey County (as appropriate)
- Staff
- Public
- Neighboring Municipal Officials (as appropriate)
- Local Member of Parliament (MP)
- Local Member of the Provincial Parliament (MPP)

A municipal emergency may be **terminated** at any time by:

- Mayor or Deputy Mayor
- City of Owen Sound Council Members
- Premier of Ontario

When **terminating** an emergency, the Mayor or Deputy Mayor will notify:

- Emergency Management Ontario, Ministry of Community Safety and Correctional Services
- City of Owen Sound Council Members

- CAO and Warden of Grey County (as appropriate)
- Staff
- Public
- Neighboring municipal officials (as appropriate)
- Local Member of the Provincial Parliament (MPP)
- Local Member of Parliament (MP)

### **Declaration of a County Emergency**

The Grey County Warden (or designated alternate) Head of Counsel in consultation with the Grey County Council Group is responsible for declaring an emergency to exist within the Grey County when:

- The Mayor or Deputy Mayor of an affected municipality requests that Grey County Emergency Plan be activated
- The emergency affects a large portion of the inhabitants of more than one area Municipality within the County; or
- The emergency requires extraordinary actions or expenditures or monies by one or more County services for the protection of life and property.

**When the resources of the City of Owen Sound are deemed insufficient to control the emergency, the Mayor or Deputy Mayor for the City of Owen Sound may request:**

- The Grey County Warden or the Grey County Chief Administrative Officer (CAO) activates the Grey County Alerting System
- Once the Grey County Emergency Management Plan is implemented, the Mayor, Deputy Mayor or a designated Senior Municipal Official will become members of the Grey County Control Group
- That the remaining municipal staff from the Owen Sound MECG will then remain as a support group(s) or support staff to the Mayor or Deputy Mayor
- All decisions by Grey County Control Group (as appropriate) affecting the lives and property of the inhabitants within the City of Owen Sound shall be made in consultation with the Mayor, or Deputy Mayor and members of the Owen Sound MECG.

### **Protection from Liability and Compensation**

The Emergency Plans Act identifies that:

*“No action or other proceedings for damages lies or shall be instituted against a member of Council, an employee, a minister of the Crown or a Crown employee for doing or neglecting to do any act in good faith or in the implementation or intended implementation of an emergency plan or in connection with an emergency”.*

*“Where money has been expended or cost is incurred by the municipality or the Crown in the implementation of an emergency plan or in connection with an emergency, the*

*municipality or Crown, as the case may be, has the right of action against any person who caused the emergency for the recovery of such money or cost, and for the purpose of this section, "municipality" includes a local board of a municipality, a county and local services board."*

## EMERGENCY RESPONSE LEVELS AND ACTIONS

RESPONSE LEVEL	INITIAL ACTIONS BY MUNICIPALITY
1-Routine	A routine incident which the municipality has the capability to Standard Operating Guidelines. Generally this is an emergency of a short duration and low impact.
2-Monitoring	The Mayor, City Manager, Director of Operations, Police Chief, Fire Chief, CEMC and Emergency Information Officer monitor the situation from their normal workplace or home.
3-Enhanced Activation	Members of the MECG (Mayor, City Manager, Director of Operations, Police Chief, Fire Chief, Director EMS and Emergency Information Officer) meet to discuss the events, current actions and potential for the incident to require activation of the EOC and MECG. This would be activated by one of the above individuals.
4- Full Activation	The EOC and full MECG are activated through the Owen Sound Police Services Duty Sergeant.

**Enhanced Activation** – implemented when a situation requires continual monitoring by the municipality. A community emergency is not imminent, but unforeseen circumstances could result in the situation becoming a threat to the community. An example would be indications for extreme weather or an emergency occurring in an adjacent community.

**Full Activation** – the entire Municipal Emergency Control Group (MECG) assembles at the designated EOC. Organizations contacted ensure that they undertake their own internal and external notifications and contacts. The EOC Operations Manager in conjunction with the four IMS sections coordinates the emergency response.

## MUNICIPAL EMERGENCY OPERATIONS CENTRE

### Locations

The locations of the City of Owen Emergency Operations Centers are:

**Primary**

Owen Sound Fire & Emergency Services  
 1209 3<sup>rd</sup> Avenue East  
 Owen Sound, ON N4K 2L6  
 519- 376-2512

**Secondary**

Owen Sound Police Services  
 922 2<sup>nd</sup> Avenue West  
 Owen Sound, ON N4K 4M8  
 519-376-1234

The Emergency Operations Centre (EOC) can be activated for any incident for the purposes of managing an emergency by maintaining services to the community and supporting the emergency site.

### Incident Management System

The direction and control structure for the City of Owen Sound's emergency operations is based upon the Incident Management System (IMS). IMS is an internationally recognized, standardized emergency response system, which defines the basic command structure and the roles and responsibilities required for the effective management of the emergency.

IMS is endorsed by Emergency Management Ontario. The benefits of using IMS include: enhanced technical and functional interoperability, integrated communications; and standard terminology.

IMS consists of five key functions:

1. Command (Emergency Operation Centre) Management
2. Operations
3. Planning
4. Logistics
5. Finance/Administration

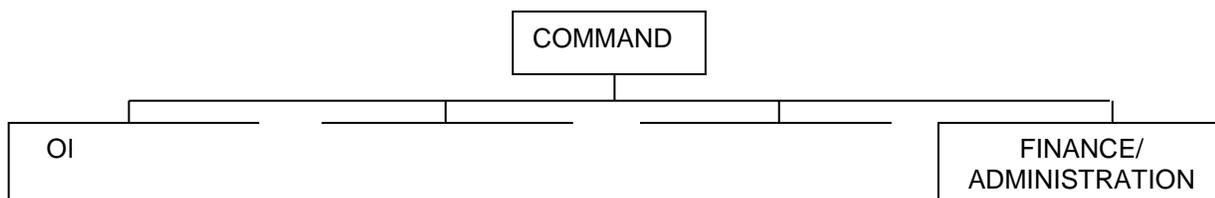

Figure 1: The 5 Key Functions of the Incident Management System

## Incident Management System (IMS) Function Descriptions

The Incident Management System (IMS) is a model for command, control and coordination of an emergency. It provides a way of coordinating the efforts of agencies and resources as they work together toward safely responding to an emergency incident. IMS consists of five key functions: EOC Management (Command), Operations, Planning, Logistics and Finance/Administration.

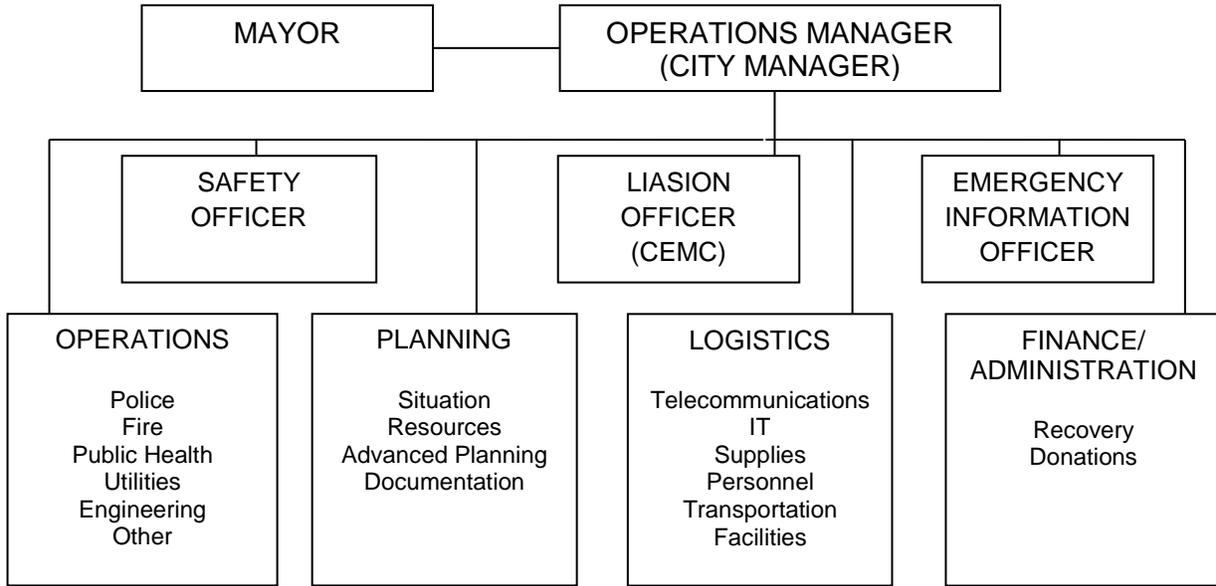

Figure 2: The 5 Key Function Descriptions of the Incident Management System

## EMERGENCY OPERATIONS CENTRE – COMMAND UNIT

The EOC management section has overall authority for the control and direction of the emergency response. EOC management has three (3) supporting functions:

1. Risk Management/Safety Officer (ensures good risk management practices are applied throughout the emergency)
2. Liaison (coordination of agencies involved in the response)
3. Emergency Information (dissemination of information to the media and public)

The Command Staff are specifically designated, report directly to the Incident Commander, and are assigned responsibility for key activities that are not a part of the General Staff functional elements. Operations Manager directly manages all incident tactical activities and implements the Incident Action Plan (IAP).

The **Emergency Information Officer** (EIO) is responsible for interfacing with the public and media and with other agencies with incident related information requirements. The Emergency Information Officer (EIO) assembles accurate, accessible, and complete information on the incident's cause, size, and current situation; the resources committed; and other matters of general interest for both internal and external audiences.

The **Safety Officer** monitors incident operations and advises Incident Command on all matters relating to operational safety, including the health and safety of emergency responder personnel.

The **Liaison Officer** (CEMC) is Incident Command's point of contact for representatives of other governmental departments and agencies and/or the private sector.

### Operations

Operations coordinates the operational requirements and the response, directs resources and equipment as required to fulfill emergency management requirements. The Emergency Site Manager (ESM) / Incident Commander (IC) at the scene of the emergency are part of Operations away from the EOC.

### Planning

Planning gathers information critical to the incident in order to develop, disseminate and evaluate Incident Action Plans (IAP's).

### Logistics

Logistics arranges for and coordinates all material, services, equipment and resources required to manage and resolve the emergency. Logistics tracks usage and current locations of these same items. Logistics is responsible for all service support requirements needed to facilitate effective and efficient incident management, including ordering resources from off-incident locations.

Logistics also provides facilities, security, transportation, supplies, equipment maintenance and fuel, food services, communications and information technology support, and emergency responder medical services.

**Finance/Administration**

Finance/Administration perform duties related to administrative, financial and compensation and claims specific to the emergency. This includes keeping track of incident related costs, staff compensation and claims.

## **RELATIONSHIPS**

### **Municipal Emergency Control Group & Emergency Site Manager**

Depending on the nature of the emergency, and once the Site Manager has been assigned, the MCEG relationship with the ESM is to offer support with equipment, staff and other resources, as required.

The MCEG will also ensure that the rest of the community maintains municipal services.

### **ESM and Command & Control Structure of Emergency Responders**

The senior representative for each emergency responder (police, fire, EMS, public works) at the site will consult with the ESM so as to offer a coordinated and effective response. Regular briefings will be held at the site and chaired by the ESM so as to establish the manner and process to the emergency.

### **City of Owen Sound and Grey County**

In the event of an emergency, it is important that the two levels of local government operate in a cohesive, planned manner. This Emergency Response Plan contemplates the sharing of resources in order to provide the citizens of the City of Owen Sound and Grey County with an effective, planned and cooperative approach to emergency management.

It is recognized that, in the event of a large scale emergency involving several or all of the nine area municipalities, the ability of the Grey County to provide staff to all nine EOCs and the County EOC may become strained, in which case the local area municipality may receive assistance from those agencies by communications link, rather than a direct presence in the local EOC.

### **Testing of the Plan**

Annual exercises will be conducted in order to test the overall effectiveness of this Plan and provide training to the Emergency Control Group and on-site personnel. Revisions to this Plan should incorporate recommendations stemming from such exercises.

### **Internal Procedures & Processes**

Each department and service involved with this Plan will prepare functional emergency procedures or guidelines outlining how it will fulfill its responsibilities during an emergency.

Each department and service will ensure that it designates a member of its staff to maintain and revise its own emergency procedures or guidelines.

## CHECKLIST IN CONSIDERATION OF A DECLARATION OF EMERGENCY

(Note: All references in this document refer to the *Emergency Management and Civil Protection Act*, R.S.O. 1990, Chapter E.9, as amended 2003)

*\* This checklist is for use by municipal heads of council considering the declaration of an emergency within their municipality. This checklist is not intended to provide any sort of legal advice – it is merely a reference tool.*

An emergency is defined under the *Emergency Management and Civil Protection Act* as “a situation, or an impending situation caused by the forces of nature, an accident, an intentional act or otherwise that constitutes a danger of major proportions to life or property” [Section 1, definition of an emergency].

Under the *Emergency Management and Civil Protection Act*, only the head of council of a municipality (or his or her designate) and the Premier have the authority to declare an emergency. These individuals, as well as a municipal council, have the authority to terminate an emergency declaration [Sections 4 (1), (2), (4)].

An emergency declaration may extend to all, or any part of the geographical area under the jurisdiction of the municipality [Section 4 (1)].

If the decision is made to declare an emergency, the municipality must notify Emergency Management Ontario (on behalf of the Minister of Community Safety and Correctional Services) as soon as possible [Section 4 (3)]. Although a verbal declaration of emergency is permitted, all declarations should ultimately be made in writing to ensure proper documentation is maintained. Written declarations should be made on municipal letterhead, using the template provided by Emergency Management Ontario, and should be faxed. When declaring an emergency, please notify the Provincial Operations Centre.

When considering whether to declare an emergency, a positive response to one or more of the following criteria **may** indicate that a situation, whether actual or anticipated, warrants the declaration of an emergency:

### General and Government

#### **Is the situation an extraordinary event requiring extraordinary measures?**

[Section 4 (1) permits a head of council to “take such action and make such orders as he or she considers necessary and are not contrary to law” during an emergency.]

**Does the situation pose a danger of major proportions to life or property?**

[Section 1, definition of an emergency]

**Does the situation pose a threat to the provision of essential services (e.g., energy, potable water, sewage treatment/containment, supply of goods or medical care)?** [Some situations may require extraordinary measures be taken or expenditures be made to maintain or restore essential services. A declaration of emergency may allow a head of council to expend funds outside of his or her spending resolutions and/or the regular approval process of the municipality.]

**Does the situation threaten social order and the ability to govern?** [Whether due to a loss of infrastructure or social unrest (e.g., a riot), a crisis situation has the potential to threaten a council's ability to govern. In such cases, extraordinary measures may need to be taken. Section 4 (1) provides for extraordinary measures, not contrary to law. Section 55 (1) of the *Police Service Act* provides for the creation of special policing arrangements during an emergency.]

**Is the event attracting significant media and/or public interest?** [Experience demonstrates that the media and public often view the declaration of an emergency as a decisive action toward addressing a crisis. It must be made clear that an "emergency" is a legal declaration and does not indicate that the municipality has lost control. An emergency declaration provides an opportunity to highlight action being taken under your municipal emergency response plan.]

**Has there been a declaration of emergency by another level of government?** [A declaration of emergency on the part of another level of government (e.g., lower-tier, upper-tier, provincial, federal) may indicate that you should declare an emergency within your municipality. For example, in the event of a widespread disaster affecting numerous lower-tier municipalities within a county, the county will likely need to enact its emergency response plan and should strongly consider the declaration of an emergency. In some cases, however, a declaration of emergency by a higher level of government may provide sufficient authorities to the lower-tier communities involved (e.g., municipalities operating under the authority of a provincial or federal declaration).]

**Legal**

**Might legal action be taken against municipal employees or councilors related to their actions during the current crisis?** [Section 11 (1) states that "no action or other proceeding lies or shall be instituted against a member of council, an employee of a municipality, a minister of the Crown or a Crown employee for doing any act or neglecting to do any act in good faith in the implementation or intended implementation of an emergency management program or an emergency plan or in connection with an emergency." Section 11 (3), however, states "subsection (1) does not relieve a municipality of liability for the acts or omissions of a member of council or an employee of the municipality...."]

**Are volunteers assisting?** [The *Workplace Safety and Insurance Act* provides that persons who assist in connection with a declared emergency are considered “workers” under the Act and are eligible for benefits if they become injured or ill as a result of the assistance they are providing. This is in addition to workers already covered by the Act.]

### **Operational**

**Does the situation require a response that exceeds, or threatens to exceed the capabilities of the municipality for either resources or deployment of personnel?** [Section 4 (1) permits the head of council to “take such action and make such orders as he or she considers necessary and are not contrary to law to implement the emergency plan.” Section 13 (3) empowers a municipal council to “make an agreement with the council of any other municipality or with any person for the provision of any personnel, service, equipment or material during an emergency.”]

**Does the situation create sufficient strain on the municipal response capability that areas within the municipality may be impacted by a lack of services, thereby further endangering life and property outside areas directly affected by the current crisis?** [Some situations may require the creation of special response agreements between the municipality and other jurisdictions, private industry, no government organizations, etc. Section 13 (3) states that the “council of a municipality may make an agreement with the council of any other municipality or with any person for the provision of personnel, service, equipment or material during an emergency.”]

**Is it a consideration that the municipal response may be of such duration that additional personnel and resources may be required to maintain the continuity of operations?** [In the event of a large -scale crisis, such as an epidemic or prolonged natural disaster, municipal resources may not be able to sustain an increased operational tempo for more than a few days. This is particularly true if emergency workers are injured or become ill as a result of the crisis. In such a case, the municipality may need to utilize outside emergency response personnel. Section 13 (3) provides for mutual assistance agreements between municipalities.]

**Does, or might, the situation require provincial support or resources?**

[Provincial response (e.g., air quality monitoring, scientific advice, airlift capabilities, material resources, etc.) may involve numerous ministries and personnel. Activation of the municipal emergency response plan, including the opening of the Emergency Operations Centre and meeting of the Community Control Group, can greatly facilitate multi-agency and multi-government response.]

**Does, or might, the situation require assistance from the federal government (e.g., military equipment)?** [Section 13 (2) authorizes the Minister of Community Safety and Correctional Services, with the approval of the Lieutenant Governor in Council, to enter into mutual assistance agreements with the federal government. In Canada, federal emergency assistance is accessed through, and coordinated by, the province. The declaration of an emergency may assist a municipality in obtaining

federal assistance.]

**Does the situation involve a structural collapse?** [Structural collapses involving the entrapment of persons *may* require the deployment of one or more Heavy Urban Search and Rescue (HUSAR) teams. Ontario has a HUSAR team. This team is specially equipped and trained to rescue persons trapped as a result of a structural collapse. Any municipality in the province can request a HUSAR deployment to a declared emergency. Requests for HUSAR resources should be made through your local mutual aid fire coordinator. Approval for the dispatch of the HUSAR team comes from the Commissioner of Public Security.]

**Is the situation a large-scale or complex chemical, biological, radiological, or nuclear (CBRN) incident?** [Response to CBRN incidents requires specialized resources and training. Ontario is developing three CBRN teams to respond to incidents throughout the province. CBRN teams are only dispatched to declared emergencies. Requests for a CBRN deployment should be made through your local mutual aid fire coordinator. Approval for the dispatch of CBRN teams comes from the Commissioner of Public Security.]

**Does the situation require, or have the potential to require the evacuation and/or shelter of people or animals [livestock] from your municipality?** [Evacuee and reception centers often use volunteers as staff. As noted above, the declaration of an emergency enacts certain parts of the *Workplace Insurance and Safety Act* related to volunteer workers. Secondly, an evacuation or sheltering of citizens has the potential to generate issues pertaining to liability. Section 11 of the *Emergency Management Act* may provide municipal councilors and employees with certain protections against personal liability.]

**Will your municipality be receiving evacuees from another community?** [The issues discussed in the previous bullet may apply equally to municipalities accepting evacuees.]

## **Economic and Financial**

**Does the situation pose a large-scale disruption to routine patterns of transportation, or re-routing of large numbers of people and vehicles?** [The rerouting of people and vehicles poses a potential liability risk. Keeping persons from their homes and delaying commercial traffic are both sensitive issues. Section 11 of the Act may provide certain protection from liability. Section 4 (1) allows for extraordinary measures to be taken, providing they are not contrary to law.]

**Is an event likely to have a long term negative impact on a community's economic viability/sustainability, including resulting unemployment, lack of available banking services and restorative measures necessary to re-establish commercial activity?** [The declaration of an emergency may facilitate the ability of the municipality to respond to economic losses.]

**Is it possible that a specific person, corporation, or other party has caused the situation?** [Section 12 states that “where money is expended or cost is incurred by a municipality or the Crown in the implementation of an emergency plan or in connection with an emergency, the municipality or the Crown, as the case may be, has a right of action against any person who caused the emergency for the recovery of such money or cost....”]
